# **Budget Overview**

RICK SNYDER GOVERNOR TE OF MICHIG

STATE OF MICHIGAN EXECUTIVE OFFICE LANSING

BRIAN CALLEY LT. GOVERNOR

February 17, 2011

My Fellow Michigan Citizens:

As I said in my State of the State address, reinventing Michigan demands that we break the bad habits of the past and embrace opportunities for our future. State government has been spending more than it receives for far too long. A gaping budget deficit and serious problems have been the result. These are problems that cannot be fixed with accounting gimmicks or a one-time infusion of federal money. These are problems that require the resolve to make tough decisions.

I have been clear that the months ahead will not be easy. They will involve difficult but necessary changes to bring Michigan's budget into structural balance. There will be shared sacrifice, but through that shared sacrifice, Michigan will emerge as a stronger and more vibrant state. This budget will lay the foundation for economic growth, job creation and our robust collective future and quality of life.

The budget I am recommending is submitted in conjunction with a restructuring of Michigan's tax system in order to make it more simple, fair and efficient. In order to stimulate the economy and ensure that the state is open for business, my plan includes the promised elimination of the Michigan Business Tax, to be replaced with a flat Corporate Income Tax set at 6 percent. The scheduled reduction in the individual income tax rate from 4.35 percent remains and will be fixed at 4.25 percent. Michigan is one of only three states in the nation that exempt most or all of pension income from state income tax. This plan will broaden the base of taxpayers by including all those earning private and public pensions. In addition, I am proposing the elimination of many of the other credits for individual income tax.

This budget presents a balanced two-year plan that creates a forward-thinking approach to keeping the state's fiscal house in order. And for the first time, state spending will be tied to measured outcomes through the use of performance metrics. It's a responsible budget that cuts \$1.8 billion and tackles other necessary reductions for a long-term solution to our problems, while providing a critical safety net for Michigan citizens in need and preserving core, essential services. It provides the course correction that is needed to help businesses succeed and create jobs. Simply put, we are done kicking the can down the road.

Adoption of this budget plan by May 31, 2011, will send the message that Michigan is ready for a new, sound foundation, and it's the necessary budget for job creation and moving forward together. My administration stands ready to work in partnership with the members of the Michigan House and Senate to enact the fiscal year 2012 budget.

Sincerely. Engler Rick Snyder

Governor

# Foundation for michigan's reinvention

## Fiscal Years 2012 and 2013 Executive Budget Recommendation

Michigan's reinvention begins in earnest with Governor Rick Snyder's fiscal years 2012 and 2013 Executive Budget Recommendation, which reflects his bold and decisive plan to energize Michigan's lagging economy, protect citizens and preserve critical functions, and reshape the delivery of public services. Turning the page on the old ways of doing business, Governor Snyder's budget recommendation lays the foundation for Michigan's resurgence with tax restructuring essential to spurring economic growth and job creation, as well as the difficult, but necessary actions needed to restore long-term fiscal solvency to the state.

#### **Budget Process Reforms**

A mong Governor Snyder's priorities is reforming the budget process, and making state government more transparent and accountable to the citizens of Michigan. The budget presented today is a balanced, two-year spending plan with recommended fiscal year 2012 appropriations, as well as anticipated appropriations for fiscal year 2013. This new two-year approach to budgeting will allow for more long-term strategic planning, and if enacted by May 31, 2011, as requested by Governor Snyder, it will give schools, municipalities and other local service providers more time to manage their operations.

The two Executive Budget bills presented today for legislative introduction are also "omnibus" in nature, with one bill including all departmental operations and the other bill comprehensive to education. The two consolidated bills will allow for greater transparency in government spending, making appropriations easier to monitor across agencies. In addition, the bills have been streamlined to allow for greater flexibility in driving program performance.

#### Measuring Michigan's Performance

Governor Snyder's commitment to government transparency and accountability includes the creation of MiDashboard, available online at www.michigan.gov/midashboard. MiDashboard establishes clear statewide measures in the areas of economic strength, health and education, value for money government, quality of life and public safety that allow the citizens of Michigan to easily gauge the state's progress across a number of key performance indicators.

MiDashboard represents an important step in moving Michigan's budget process toward a new model of managing for results. The spotlight cast by MiDashboard will require that elected officials and state leaders continually evaluate the efficiency and effectiveness of programs to determine if they are delivering the desired results. Further, it will be an honest representation of where Michigan stands relative to national benchmarks. It will identify strengths, but also illuminate areas where improvement is needed.

MiDashboard			11	8
🔵 Top 10 States 🛛 🕆	Performan	ice improv	ing	
😑 Middle 30 States 🛛 🖓	Performan	ice staying	about	the same
🛑 Bottom 10 States 🛛 🕂	Performan	ice declinii	ng	
Economic Strength	Prior	Current	Rank	Progress
Unemployment	12.4%	11.7%	-	
Gross Domestic Product (GDP)	(2.7)%	(5.2)%	•	$\bigcirc$

Number of structurally deficient bridges	2,732	2,726	•	Û
Children living in poverty	19%	23%	•	1

Additional agency-specific performance measures that compliment MiDashboard are available for each program area supported in the Governor's budget recommendation. These measures, along with an indicator of how performance is trending, are key to the Governor's focus on managing for results. The measures presented are transitional, and reflect the initial steps of a work process that will culminate with the development of detailed balanced scorecards for each agency.

# Michigan's Economic & Fiscal Challenges

While reforming the budget process and ensuring greater accountability are important components of Governor Snyder's road map for moving Michigan forward, the central task at hand is jumpstarting the economy and getting Michigan's fiscal house in order.

"We have been spending more than we have in revenue and we have serious problems. It's not time to cry about it, it's not time to whine about it. It's time to go to work."

Governor Rick Snyder speaking at the Business Leaders for Michigan Leadership Summit on January 31, 2011

The reality facing Michigan is that our state continues to trail the nation in terms of economic recovery, and although there are positive signs related to the turnaround of the auto industry, unemployment remains unacceptably high and job growth is lagging. Further compounding Michigan's situation, the financial models of our state and local governments are unsustainable. Service duplication, debt, public employee compensation and unfunded retirement obligations are impacting the long-term fiscal health of state and local governments. Governor Snyder believes Michigan and its public institutions must correct course, stop spending money they don't have, and implement pragmatic solutions to the economic and fiscal problems that exist.

To address these fundamental issues, Governor Snyder's Executive Budget Recommendation fulfills his commitment to create a more competitive business climate by eliminating the onerous and complex Michigan Business Tax, replacing it with a new tax structure that is simple, fair and efficient for all taxpayers. Governor Snyder also resolves the structural budget deficit that has plagued Michigan for the last decade.

The Governor's budget recommendation includes difficult spending cuts, changes in service delivery, and the shared sacrifice of many, including public employees. It challenges schools and local governments to tackle necessary reforms. It constrains spending, stops the one-time fixes, and puts Michigan back on a path to long-term fiscal stability.

In short, this budget represents Governor Snyder's Foundation for Michigan's Reinvention: a bold plan requiring decisive action with a commitment to providing measurable results for the citizens of Michigan.

# **State Revenue Forecasting and Spending Limits**

State law requires two revenue estimating conferences each year, typically held in mid-January and mid-May, corresponding to key points in the annual budget development and legislative appropriations process. The January conference provides the revenue estimates for the Governor's budget recommendation presented in February, while the May conference updates the revenue estimates prior to conclusion of legislative deliberations and the enactment of appropriations.

Conferees include the State Treasurer and the directors of the Senate and House fiscal agencies. The conferees agree on baseline revenue estimates for the current year, and the upcoming fiscal year for both the general fund and School Aid Fund. For fiscal year 2012, the conferees project combined general fund and School Aid Fund revenues totaling \$18.5 billion, an increase of \$281 million or 1.5 percent from fiscal year 2011.

Revenues supporting the anticipated appropriations for fiscal year 2013 were not a part of the formal consensus process, and were instead developed by the State Treasurer. Combined general fund and School Aid Fund revenues for fiscal year 2013 are estimated to total \$18.6 billion. Baseline revenue growth from fiscal year 2012 to 2013 is \$503 million or 2.8 percent, however, it is offset by \$410 million in enacted tax expenditure commitments.

#### State Revenues are \$8 Billion Below the Constitutional Revenue Limit

Michigan's constitution includes a provision that limits revenue growth from year to year. This constitutional limitation – commonly known as the Headlee amendment – has been in place since 1978. The Headlee amendment limits annual growth in state revenues to a level that cannot exceed the year-to-year growth in personal income. This limit is intended to ensure that the state's overall revenues, both tax and non-tax, do not grow faster than the incomes of Michigan's citizens.

It is anticipated that state revenues will be \$8 billion below the constitutional revenue limit in fiscal year 2012, and \$8.1 billion below in fiscal year 2013. Both estimates include the Governor's tax restructuring proposal.

# Fiscal Year 2011: Michigan's Current Year Budget

Fiscal year 2011 represents the last year in which federal stimulus revenues provided through the American Recovery and Reinvestment Act are available. General fund spending in the current year has been offset by these temporary revenues, and without them the fiscal year 2011 general fund spending would have been \$900 million higher.

At present, both the general fund and the School Aid Fund in fiscal year 2011 are balanced, and no action is needed at this time to reduce the current year spending plan. However, potential risks related to federal Medicaid disallowances and caseload growth, unemployment insurance loan interest payments and other spending pressures are being closely monitored. Should revenues and expenditures warrant budgetary action in the current year, adjustments will be recommended to revise the spending plan.

# Fiscal Years 2012 and 2013 Executive Recommendation

The Consensus Revenue **Estimating Conference** held in January projected revenues will be \$7.3 billion in the general fund and \$11.2 billion in the School Aid Fund for fiscal year 2012, reflecting a combined total of \$18.5 billion. Due to the end of federal recovery assistance, Medicaid and Family Independence Program caseload growth and other unavoidable spending pressures, the fiscal year 2012 budget begins with a general fund budget gap of \$1.4 billion.

Fiscal Year 2012 Projected Budget Gap (\$ in millions)					
	GF/GP	School Aid Fund	Combined		
Consensus Revenue Estimate	\$7,294	\$11,194	\$18,488		
Non-Tax Revenue Adjustments	\$903	\$11	\$914		
Federal Aid to Schools	\$0	\$1,653	\$1,653		
Total Available Revenue	\$8,197	\$12,858	\$21,055		
FY 11 Current Law Spending Baseline Spending Adjustments:	\$8,302	\$13,134	\$21,436		
Replace FY 2011 One-Time Federal Stimulus Dollars	\$900	\$0	\$900		
Community Health and Human Services Caseload	\$193	\$0	\$193		
Employee Economics	\$88	\$0	\$88		
Retiree Health Insurance Costs	\$17	\$0	\$17		
Debt Service	\$98	\$0	\$98		
Other Cost Adjustments	\$11	(\$422)	(\$411)		
Total Baseline Spending Estimate	\$9,609	\$12,712	\$22,321		
Projected Funding Gap	(\$1,412)	\$146	(\$1,266)		

In fiscal year 2013, projected revenues are \$7.1 billion in the general fund and \$11.5 billion in the School Aid Fund, for a combined total of \$18.6 billion. Assuming enactment of the Governor's fiscal year 2012 plan, the fiscal year 2013 budget is balanced with a modest surplus remaining.

"Reinventing Michigan demands that we break the bad habits of the past and embrace opportunities for our future....working together, we will chart a new course and measure our progress. At the end of the day, we will be a stronger, more vibrant state."

Governor Rick Snyder, State of the State Address, January 19, 2011

Governor Snyder's budget recommendation confronts Michigan's underlying economic and fiscal issues in a decisive manner. First, the Governor's plan will restructure business taxes to grow the economy and create jobs by making Michigan a more competitive state for business. Most businesses in Michigan will experience a net tax reduction as a result of the Governor's plan. His plan further recommends additional tax restructuring to leverage this new economy and improve the quality of life in our state for all citizens.

Second, the Governor's recommendation resolves the state's structural budget deficit, and challenges the Legislature to quickly move forward with adoption of the budget to avoid delays in implementing cuts and reforms that will produce long-term savings.

# Declaring Michigan "Open for Business"

The centerpiece of Governor Snyder's plan to stimulate the economy and create jobs is to eliminate the Michigan Business Tax and replace it with a flat Corporate Income Tax. Michigan's reputation as a state that is open and friendly to business has been tarnished by the Michigan Business Tax, which has stymied growth and hampered our state's ability to rebound from the prolonged recession.

#### **Corporate Income Tax**

Michigan's business taxes have traditionally been very complex, including an intricate web of incentives, credits and deductions that unfairly favor some businesses or industries over others. Governor Snyder believes this complicated tax structure hurts Michigan businesses and constrains job growth. He proposes a simple, fair and efficient Corporate Income Tax that will even the playing field and enable all businesses and industries, large and small, to grow and create jobs.

Under the Governor's proposal, generally only those business entities that issue public or private stock, known as "C" corporations for federal tax purposes, would be subject to the proposed 6 percent tax. Other businesses, such as partnerships, sole-proprietorships, limited liability companies and "S" corporations that are not classified as "C" corporations for federal tax purposes would be exempt, resulting in significant tax relief for these companies enabling them to invest and expand. It is estimated over 95,000 companies will no longer have to file a state business tax return, ending a practice of double-taxation for those companies that already pay tax on business profits under the individual income tax.

The Corporate Income Tax will also eliminate the practice of picking winners and losers via the old system of tax credits and deductions. Michigan is projected to forego almost \$2 billion in revenue for these tax preferences in fiscal year 2013, which represent spending done through the tax code and not the more transparent appropriations process. Under the Corporate Income Tax, business credits for brownfield re-development, the Michigan Economic Growth Authority, Next Energy, advanced battery, film, renaissance zones and others are eliminated. Governor Snyder's

Current Tax Expenditure Commitments (dollars in millions)					
FY12	FY13	FY14	FY15		
\$111	\$116	\$245	\$296		
\$40	\$293	\$317	\$274		
\$50	\$50	\$40	\$32		
\$75	\$25	\$5	\$0		
\$17	\$16	\$16	\$16		
\$293	\$500	\$623	\$618		
	(dollars in r FY12 \$111 \$40 \$50 \$75 \$17	(dollars in millions) FY12 FY13 \$111 \$116 \$40 \$293 \$50 \$50 \$75 \$25 \$17 \$16	(dollars in millions) FY12 FY13 FY14 \$111 \$116 \$245 \$40 \$293 \$317 \$50 \$50 \$40 \$75 \$25 \$5 \$17 \$16 \$16		

\* Estimates of when awarded certified credits will be claimed.

\*\* Includes battery, photovoltiac and polycrystalline credits.

\*\*\* Includes renaissance zone, historic preservation, farmland preservation, workers disability, and anchor credits.

plan honors the existing commitments made to businesses through signed agreements under the old tax structure, which total \$500 million in fiscal year 2013, and it stops the practice of appropriating money through the tax system moving forward. Instead, economic development incentives will be awarded through the appropriations process and reviewed for effectiveness.

"As difficult as it will be in these tough economic times, Michiganders must join the governor in thinking about the long-term consequences of the next budget, not just dodging as much pain as possible in the short-term. And everyone, including taxpayers, should be prepared to pitch in."

#### Detroit Free Press editorial, February 2, 2011

In keeping with this philosophy, the Governor recommends direct appropriation of general fund revenues for investment in critical business and economic incentives, including \$25 million for business retention activities and \$25 million for film incentives. This funding will augment the \$75 million in the 21st Century Jobs Fund and provide the Michigan Economic Development Corporation with important tools to attract, retain and grow existing

businesses and encourage economic development in Michigan. The budget also includes \$5 million general fund for an innovative Quality of Place partnership that will provide matching funds in support of art and cultural initiatives in local communities.

The elimination of the Michigan Business Tax and the shift to a 6 percent Corporate Income Tax will result in a net loss of revenue to the state of nearly \$1.8 billion on a full-year basis. To offset the impact of this tax restructuring on the state budget, Governor Snyder proposes additional tax changes that will further streamline the tax code and make the shift to the Corporate Income Tax essentially revenue neutral beginning in fiscal year 2013.

#### Other Tax Changes Necessary to Leverage Economic Growth

Governor Snyder supports a tax code that is simple, fair and efficient for individual taxpayers, as well as businesses. Along with a flat Corporate Income Tax, the Governor proposes that the individual income tax rate be reduced on October 1, 2011, from 4.35 to 4.25 percent, as currently planned.

Further, Governor Snyder believes all taxpayers should pay the same rate regardless of their source of income. In conjunction with the reduced rate, the Governor recommends broadening the base to which the individual income tax is applied in order to capture all individual income in the state regardless of source. This more equitable application will ensure that all income is taxed at the same 4.25 percent rate.

Consistent with his simple, fair approach to the Corporate Income Tax, the Governor also recommends that all credits and deductions related to the individual income tax, with the exception of the personal exemption, the exemption for individuals with disabilities, special provisions dealing with military personnel and veterans, the homestead property tax credit and a few other subtractions, be eliminated. These changes are designed to provide equitable treatment for taxpayers.

The personal exemption will be retained, but phased-out for income in excess of \$75,000 for single filers, and \$150,000 for joint filers. Similarly, the homestead property tax credit will be retained, but the phase-out range is lowered to \$61,000 to \$70,000. The homestead property tax credit will also now equal 80 percent of the difference between property taxes and 3.5 percent of income for most homeowners.

Significantly impacted by these tax changes will be those with private and public pension income. Michigan is one of only three states in the nation that exempt most or all of pension

income from state income tax. Given our state's declining population and growing senior demographic, Governor Snyder believes Michigan can no longer afford to exempt any segment of the population from supporting an equitable share of public services. Under the tax plan pension income will be taxed, but social security benefits will continue to be exempt from state income tax.

Source: U.S. Census Bureau, Interim Projections of Population by State and Age, 2004-2030 (released April,

The projected net revenue impact of these individual income tax changes is \$1.7 billion on a fullyear basis. With an effective date of January 1, 2012, the total net impact of both the shift to the Corporate Income Tax and the individual income tax changes is a \$254 million reduction in fiscal year 2012, which is offset in fiscal year 2013. In addition, a fee and tax reform reserve fund will be created to capture revenue generated from freezing the personal income tax rate at 4.25 percent. Michigan's personal income tax rate is already very competitive. Revenues in the reserve fund will be used to provide additional ongoing tax relief in areas where the state is currently uncompetitive.

Tax Restructuring Pla (dollars in millions)	n				
Revenue Adjustments:	FY 2012	FY 2013			
Current Law: Michigan Business Tax (MBT)	\$2,170.0	\$2,024.4			
Proposed Reforms: MBT (Repealed 12/31/11) Corporation Income Tax (Effective 1/1/12) Financial Institutions Tax Certified Credits Already Awarded Net Business Tax Revenue After Credits	\$900.2 \$460.1 \$27.7 (\$293.0) \$1,095.0	\$0.0 \$748.8 \$43.9 (\$500.0) \$292.7			
Individual Income Tax Changes Reserved for Future Tax Cuts	\$820.9 	\$1,863.8 (\$100.0)			
Net Impact: Proposed Tax Changes	\$1,915.9	\$2,056.5			
Net Change from Current Law	(\$254.1)	\$32.1			
Prepared By: Office of Revenue and Tax Analysis, Michigan Department of Treasury					

These tax changes represent the shared sacrifice needed to move Michigan forward. Jumpstarting the Michigan economy requires all citizens to play a role in the reinvention. With a \$1.4 billion general fund shortfall in fiscal year 2012, Governor Snyder's tax restructuring plan does not add to the existing problem. Instead, the Governor's plan is revenue neutral beginning in fiscal year 2013, and carefully balances the necessary tax adjustments with the equally challenging task of eliminating the state's structural budget deficit.

# **Restoring Michigan's Fiscal House to Order**

Governor Snyder's budget recommendation eliminates the projected \$1.4 billion general fund funding gap in fiscal year 2012, with \$1.5 billion in spending reductions and structural reforms. Further, the savings generated in fiscal year 2012 are carried forward on an ongoing basis to effectively provide solutions for both fiscal years.

In fiscal year 2012, the \$1.5 billion in combined solutions includes \$1.2 billion in permanent spending reductions, \$324 million in structural reforms, and \$10 million in investments that encourage economic activity and produce longterm savings. Fiscal year 2012 also recognizes a shift in education costs of \$896 million from the general fund to the School Aid Fund.

"The time has come for Michigan's leaders to look at all of the state's earmarked revenues and rethink them as they set new budget priorities. Everything must be on the table and nothing, including the School Aid Fund, should be untouchable."

The Detroit News editorial, January 17, 2011

#### Education: Early Childhood Through Higher Education

The Governor's budget recommends the creation of a new State Education Funding Act that utilizes School Aid Fund revenue as well as available general fund dollars to support the state's education system at all levels from early childhood to higher education. The Executive Budget for education totals \$13.8 billion, including \$12.2 billion in funding for K-12 school districts, \$1.4 billion for higher education and \$296 million for community colleges. Nearly 53 percent of state resources in the Governor's budget are devoted to education.

A mix of state funds supports all three components of Michigan's education system in Governor Snyder's budget recommendation. State funds of \$10.5 billion (\$413 million general fund) support the K-12 school districts. Community colleges are supported by a mix of \$100 million in general fund and \$196 million from the School Aid Fund. Higher education state funds total nearly \$1.3 billion, of which \$564 million is general fund and \$700 million is from the School Aid Fund.

Nearly \$8.8 billion is provided for K-12 basic school operations - \$8.7 billion for per pupil foundation allowance payments and \$62.1 million for intermediate school district operations. In order to live within available state funds, foundation allowances have been reduced 4.1 percent, or \$300 per pupil in addition to the currently budgeted \$170 per pupil reduction, for a savings of \$452.5 million. Intermediate school district operations have been reduced by 5 percent.

Early childhood education programs, serving 28,000 children, are maintained at nearly \$110 million. Special education is funded at \$1.4 billion, including \$975 million of state funds. Other major core academic programs maintained in the Governor's budget total \$1.2 billion, including \$309 million state funding for academically at-risk students, \$36 million for career and vocational education, and \$22 million for adult education. Categorical programs and district-specific funding of \$85.6 million are eliminated.

Funding for community colleges is maintained at the fiscal year 2011 level of \$296 million. Community college enrollment continues to climb to over 480,000, while local revenues have dropped due to lower taxable values.

Recognizing Michigan's economic realities, university operations funding is reduced by 15 percent or \$222 million to \$1.2 billion. To protect students, Governor Snyder sets aside \$83 million to reward those universities that contain tuition and fee increases below the historical five-year annual system average. In addition, the Governor maintains student financial aid funding at \$51.5 million for needy students, but merges existing programs into a single Pathway to Higher Education program to streamline administration.

Governor Snyder challenges Michigan's public universities and local school districts to implement reforms that will keep tuition in check and restrain spending. The Governor encourages public universities and local school districts to institute best practices, including competitively bidding non-instructional services, and collaborations with other institutions or service providers. At the local district level, studies indicate that just a 10 percent savings in non-instructional services would yield \$300 million savings statewide.

For fiscal year 2013, the Governor sets aside \$300 million from discretionary funding and, at a minimum, makes it available to eligible school districts whose employees' share of health insurance costs is comparable to that of state employees. Program details will be included in Governor Snyder's April 2011 special message on education reform.

#### **Revenue Sharing: Incentive-Based Reforms**

The Governor's budget recommendation increases constitutional revenue sharing payments to cities, villages and townships by \$25.5 million or 4 percent in fiscal year 2012, based on estimated sales tax collections.

The Governor's budget also eliminates statutory revenue sharing payments for cities, villages and townships in fiscal year 2012, leading to a net savings of \$92.1 million. This reduction will impact 509 local units of government; currently, less than 30 percent of all local units receive statutory revenue sharing payments.

To encourage necessary reforms, the Governor's budget includes \$200 million for a new incentive-based revenue sharing program available to cities, villages and townships that meet specific standards and adopt best practices. Program components will be provided in Governor Snyder's March 2011 special message on government reform.

State revenue sharing payments to counties are reduced by \$51.8 million in fiscal year 2012.

#### Michigan's Families: Health Care and Human Services

Through its partnership with the federal government, Michigan's Medicaid program provides basic physical and mental health services to low-income citizens, seniors, and people with disabilities. Governor Snyder's Medicaid budget is funded at \$12 billion, reflecting the institution of a new 1 percent health care insurance claims assessment on all paid health care insurance claims.

In anticipation of federal action that will require the phase-out of the current 6 percent tax on health maintenance organizations, the Governor recommends a broad-based claims assessment. By broadening the base to all insurance claims, the rate can be reduced to 1 percent and generate the same amount of revenues. Governor Snyder supports this continued investment in our health care system even in the face of difficult budget cuts, as it will keep over \$780 million

of federal dollars flowing to maintain existing Medicaid reimbursement rates to Michigan's health care providers, including hospitals, health maintenance organizations, nursing homes and physicians. Medicaid eligibility is maintained and provider reimbursement rates are supported without reductions.

To better provide more efficient medical care to seniors and people with disabilities, individuals eligible for both Medicare and Medicaid will be integrated into a managed care service delivery model. This change in providing medical services will save \$10 million general fund. The Governor's budget also proposes efficiencies in the adult home help program that will save \$6 million general fund, while maintaining basic services that assist seniors and people with disabilities living at home.

Additional budget reductions in the Department of Community Health totaling \$41.5 million general fund include reduced graduate medical education payments, as well as reductions in other department programs, and savings from adding behavioral health medications to the preferred drug list.

While Governor Snyder's budget supports continued investment in health care, it also recognizes that with our limited resources, public assistance must be a bridge to family independence. The Governor's budget includes a lifetime limit of 48 months with exemptions for incapacity and hardship, for families receiving cash assistance through the Department of Human Services' Family Independence Program, saving \$77.4 million (\$65 million general fund).

The Governor's budget reduces the hourly rates paid by the Department of Human Services to unlicensed aides and relatives in the child day care program saving \$13.9 million, while continuing to provide assistance with child care expenses for low-income families.

The recommendation also provides for the closure of the Shawono Center in Grayling and a 20bed reduction in capacity at the Maxey Training School in Whitmore Lake, both detention and treatment facilities for male youth operated by the Department of Human Services, resulting in \$787,000 in general fund savings. Other reductions in the Department of Human Services include the elimination of 300 field worker positions, before-and after-school programs, and other programmatic savings totaling \$26.1 million general fund.

#### **Other Service Delivery Transformations and Spending Reductions**

Part of addressing the structural deficit involves recognizing that state government can no longer continue with business as usual. Governor Snyder's budget recommendation includes innovative new public-private partnerships, and acknowledges that some services can no longer be sustained or continued in the same manner with the limited resources available. Key spending reductions include:

• Ongoing declines in the prison population will allow for the closure of one facility late in fiscal year 2011, providing full-year savings of \$18.9 million general fund. Other administrative efficiencies, supply chain transformations, elimination of the public works program, and competitive bidding of food service and prison stores in the Department of Corrections will save \$32.3 million general fund.

- Field services restructuring in the Michigan State Police will reduce the number of posts saving \$3.2 million general fund. The dual mission of the department will remain highway patrol and 9-1-1 response to criminal complaints. Other reductions, including consolidation of regional dispatch centers and an increase in fingerprint revenues, will provide savings of \$17.5 million general fund.
- The budget recommends that resident care aide services provided at the Grand Rapids Veterans' Home be competitively bid, saving \$4.2 million general fund in the Department of Military and Veterans Affairs.
- The Senior Citizens Cooperative Housing Tax Exemption program is reduced by \$2.5 million general fund to reflect actual spending levels in the Department of Treasury, and additional efficiencies provide total savings of \$4 million general fund.
- A series of revenue adjustments and administrative efficiencies in the Department of Environmental Quality seek to make these programs self-supporting relative to the cost of regulation, and facilitate the saving of \$3.8 million general fund.
- Administrative efficiencies and contract reductions in the Department of Technology, Management and Budget provide savings of \$3.8 million general fund.
- Payment in lieu of taxes (PILT) payments in the Department of Treasury and in the School Aid budget, and fire protection grants in the Department of Energy, Labor and Economic Growth are reduced by 15 percent reflecting declining property valuations, saving a total of \$3.7 million.
- The dairy farm inspection program is eliminated in the Department of Agriculture and Rural Development budget, saving \$600,000 general fund. Inspection responsibility will be turned over to industry field representatives certified by the department. Other reductions and regulatory support measures in the department provide additional savings of \$2.4 million general fund.
- Shifting support for the Mackinac Island State Park Commission to restricted funds in the Department of Natural Resources will save \$1.6 million general fund. The department's recommended budget also saves an additional \$838,100 general fund through other program and administrative reductions.
- Along with administrative efficiencies in the Department of Energy, Labor and Economic Growth, the budget eliminates the Worker's Compensation Appellate Commission, saving a total of \$2.3 million general fund.
- The budget eliminates several state educational reform activities implemented in conjunction with Michigan's unsuccessful Race to the Top application, saving \$1.9 million general fund. State aid to libraries in the Department of Education budget is also reduced by \$2.3 million general fund, with \$950,000 directed to the Michigan eLibrary, resulting in net general fund savings of \$1.4 million.

- The Department of State budget saves \$2.1 million general fund by continuing the integration and expansion of self-service options.
- Elimination of six trial court judgeships in the Judiciary budget saves \$942,100 general fund consistent with anticipated caseload reductions.

#### State Employee Concessions and Structural Reforms

While the number of state employees has declined by 12,900 or 21 percent over the last decade, total employee compensation has increased by 38 percent. These costs are increasing at an unsustainable pace, and are a result of employee and retiree benefits that are considered out-of-step with the private sector. In addition, a number of work rules or negotiated issues that present unique challenges and add substantial costs for the operation of 24-hour institutions must be further examined. Governor Snyder's budget includes savings of \$180 million general fund for employee concessions to be negotiated with represented employee organizations. These concessions reflect the necessary, long-term reforms needed to bring state employee compensation in-line with current fiscal realities.

One of the most significant drivers of long-term employee compensation costs are postemployment benefits provided to state retirees, principally for health care. Unlike pension obligations, which are actuarially determined and pre-funded, the state pays for retiree health care on a current or cash basis. At the close of fiscal year 2010, the longterm liability of this benefit totaled \$14.5 billion. The Governor's budget includes \$200 million general fund to begin to address this growing fiscal obligation to actuarially fund the required contribution, setting an example for Michigan's local units of government to likewise confront this liability. In addition, the Governor is recommending statutory changes to reduce the state's long-term post retirement exposure.

Governor Snyder's budget also includes an investment of \$5 million in the Department of Technology, Management and Budget to incentivize state agency reforms through a new Information Technology Innovations Fund. This fund will be used to competitively select and invest in high-priority, low-cost state agency innovation projects that demonstrate significant return on investment.

# **Protecting Citizens and Preserving Critical Services**

While significant reductions are needed to restore fiscal solvency, the Governor's budget recommendation carefully prioritizes remaining resources to protect citizens and preserve critical services. The Governor's budget provides total spending of \$46 billion, balancing the needs of our citizens while meeting Michigan's long-term obligations.

Other key spending recommended in the Governor's budget:

- \$13.8 billion for education in K-12 schools, universities and community colleges, providing the essential foundation for Michigan's workers of tomorrow;
- \$12 billion supporting health care for nearly two million adults and children, representing one in five Michigan residents;
- \$3.6 billion in Food Assistance Program benefits for over two million Michigan residents;
- \$2.9 billion for road and bridge construction and maintenance and public transportation programs supporting the movement of people and goods;

Over 75% of Total FY 2012 Spending Devoted to

- \$1.8 billion to maintain public safety by managing the custody and care for 44,000 prisoners and supervision of 80,000 felony probationers and parolees;
- \$670 million for workforce training and development programs;
- \$659 million for constitutional revenue sharing payments to local units of government;
- \$340 million for regulatory and consumer protection;
- \$250 million for state parks, recreation and natural resource stewardship programs;
- \$245 million for environmental protection, pollution prevention and response programs;
- \$75 million for the 21st Century Jobs Fund to promote economic development;
- \$30 million for the protection of Michigan's food supplies ranging from inspections to detecting and preventing disease in our livestock.

### Conclusion

The challenge that this budget presents cannot be understated. It seeks to invigorate Michigan's economy with a bold plan to spur growth and job creation. It proposes a new tax structure that is simple, fair and efficient, and asks all of our citizens to help leverage our state's economic revitalization through shared sacrifice. It recommends difficult spending reductions. It demands that we think about our public institutions and government services in new and alternative ways. It challenges schools and local governments to enact necessary reforms, and it requires additional concessions of our public employees.

While the task at hand may be difficult, Governor Snyder believes we can no longer push our budget problems to the future. In order to turn the page on the past decade and start anew with relentless positive action, our leaders must have the courage to tackle our state's economic and fiscal problems, and do so in a timely and pragmatic manner. The two-year budget presented by Governor Snyder provides the long-term fiscal solvency needed, and it positions Michigan to again be a leader in economic growth and job creation. Adoption of this budget plan by May 31, 2011, will send a strong message to businesses looking to invest, and citizens of this great state, that this is the right foundation for Michigan's reinvention.

# Department of Agriculture and Rural Development

The Department of Agriculture and Rural Development provides services to the Michigan food and agriculture community through a variety of food safety, environmental protection, and animal and plant health programs. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$71.5 million, of which \$27.1 million is general fund. The fiscal year 2013 recommendation includes \$72.9 million total funding of which \$27.7 million is general fund.* 

#### Funding Protects Public Health and the Environment

#### Highlights of Governor's Budget Recommendation

- Funding for core programs of the department is maintained including food safety and consumer protection programs as well as plant and animal health, welfare, and disease response.
- The Governor recommends transferring the dairy farm milk safety inspection program to dairy industry field representatives who are certified by the department to conduct dairy farm inspections, realizing a savings to the general fund of \$600,000.
- By inspecting nursery stock for out-of-state or foreign sale only, the department will recognize \$500,000 of general fund savings. Inspections of all intra-state products will become the responsibility of the industry.
- Due to continued success in managing Bovine Tuberculosis, savings of \$332,000 can be achieved without jeopardizing Michigan's program.
- By focusing on surveillance activities related to food and animal feed safety alone, the department will recognize a savings to the general fund of \$250,000. The department will no longer collect and analyze animal feed samples for nutrient content.
- Inspections of animal shelters will be eliminated, saving \$100,000 general fund.
- The Governor proposes to increase the annual grain dealer fee which will fully fund the producer security program, saving \$300,000 general fund.
- The Governor recommends amending the Drain Code by reducing the responsibilities of the Department of Agriculture and Rural Development and creating a voluntary assessment for each Intercounty Drainage District that chooses to access state services. These changes will save \$432,300 general fund.

Fiscal Years 2012 and 2013 Executive Budget Recommendation

# **Attorney General**

The Attorney General serves as the State of Michigan's chief law enforcement officer and upholds and preserves the state's legal interests. The Attorney General provides legal advice and representation to state officials and agencies and, when warranted, initiates legal action on behalf of the residents of Michigan. The Attorney General also receives and investigates consumer complaints and enforces child support orders. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$74.3 million, of which \$28.1 million is general fund. The Governor's proposed budget for fiscal year 2013 recommends total funding of \$76.3 million, of which \$28.8 million is general fund.* 

#### Highlights of Governor's Budget Recommendation

- The Executive Recommendation provides \$72.4 million for Attorney General Operations, which funds 250 attorneys who provide a wide array of legal services including representation of state officials and agencies, child abuse and neglect, health care fraud, consumer protection, and litigation on behalf of the state.
- Nearly \$1.9 million is recommended for the Prosecuting Attorneys Coordinating Council, an autonomous agency that provides training, automation support, and legal research for local prosecutors throughout the state.

# **Department of Civil Rights**

The Department of Civil Rights resolves and investigates discrimination complaints and works to prevent discrimination through educational programs that promote voluntary compliance with civil rights laws. The department administers programs for complaint investigation, outreach and education, mediation, partnerships, crisis intervention, contract compliance, the Michigan Women's Commission and federal contracts. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$12.1 million, of which \$9.8 million is general fund. For fiscal year 2013, the Governor recommends total funding for the department of \$12.4 million, of which \$10.1 is general fund.* 

#### Highlights of Governor's Budget Recommendation

- The Governor recommends an increased focus on housing discrimination cases allowing the state to capture \$463,200 in additional federal funds.
- Given the ongoing constraints of the state's revenue, additional savings of \$570,000 general fund have been identified to make the department more cost effective and efficient.

Foundation for Michigan's Reinvention

# **Community Colleges**

A key component of Michigan's education system, Michigan's 28 community colleges provide over 480,000 residents per year with affordable access to postsecondary educational

### Highlights of Governor's Budget Recommendation

- State funding for each community college is maintained at the fiscal year 2011 level. Continued state support is critical because community colleges have experienced an estimated \$65 million loss in local revenue in the last four years.
- Continuation funding of \$3.3 million assists academically at-risk students in need of remedial education.
- State Building Authority rent payments of \$24 million, all general fund, support debt service for recently constructed community college building projects.

Fiscal Years 2012 and 2013 Executive Budget Recommendation

Foundation for Michigan's Reinvention

## **Department of Community Health**

The Department of Community Health (DCH) is responsible for health policy and management of the state's publicly funded health care systems. These programs include Medicaid health coverage for those with limited incomes; mental health services for people who have a mental illness or developmental disability; services for individuals who need substance abuse treatment; and services provided through local public health programs. The department also provides services to promote the independence and preserve the dignity of Michigan's elderly through the Office of Services to the Aging. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$14 billion, of which \$2.7 billion is general fund. The recommendation for fiscal year 2013 is \$14.4 billion, of which \$2.9 billion is general fund.* 

#### Highlights of Governor's Budget Recommendation

Medical Services

• The DCH budget recommends \$9.7 billion (\$1.2 billion general fund) for medical services and \$2.2 billion (\$388.5 million general fund) for the long term care portion of the Medicaid program. This represents a 1 percent decrease over fiscal year 2011 due to the removal of the use tax from managed care rates, offset by caseload increases, utilization/inflation and special provider payments. Medicaid provides health care services for one out of every five Michigan residents.

Medicaid Serves Over 1.9 Million People

From 1980 to 2000, Medicaid caseload increased by 15%. From 2000 to 2012, Medicaid caseload increases by 79%.

- Michigan's health care safety net is protected in the Governor's Executive Recommendation. Medicaid eligibility is maintained and provider reimbursement rates are supported without reductions.
- \$437.5 million (\$180.9 million general fund) is added to the Medicaid budget for increases in the number of Medicaid recipients and increased utilization of services.
- \$509.4 million (\$172.8 million general fund) is invested in community-based long term care services. The budget continues to move the elderly and disabled from nursing homes to home care. This successful initiative has saved \$65 million since 2008. While nursing homes provide a valuable and necessary service for those with high care needs, home care can provide alternatives that meet client needs in a less costly community setting.
- \$138 million (\$34 million general fund) is allocated to fund the Adult Benefits Waiver program that provides basic health coverage to low-income childless adults.

## Medicaid Makes up 87% of the DCH Budget

#### Mental Health Services

• Mental health services are funded at \$3 billion (\$1.2 billion general fund) consisting of \$2.7 billion (\$1.1 billion general fund) to provide community mental health services, and \$262 million (\$63.3 million general fund) to fund state operated psychiatric hospitals and centers.

#### Other Medical Services

- \$645.1 million (\$75.6 million general fund) is invested in health promotion, disease prevention and services to senior citizens and families, including \$37.4 million (\$32.2 million general fund) in grants to local public health departments. Savings of \$1.7 million general fund is achieved from reductions in funding to local public health departments.
- Children's Special Health Care Services is supported with \$295.2 million (\$124.1 million general fund) to provide medical care and treatment for children with special health care needs.

#### **Budget Initiatives**

- The Governor's Executive Recommendation proposes a health care insurance claims assessment of one percent applied to all health insurers in the state. Raising \$400 million in revenue, the claims assessment will replace the existing use tax on Medicaid health maintenance organizations and support Medicaid provider reimbursement rates and services. The Governor proposes the new claims assessment because of anticipated federal action that will result in the phase-out of the six percent use tax. By broadening the base and lowering the rate, the new assessment will raise the same amount of revenue as the current use tax.
- Elderly and disabled individuals eligible for both Medicare and Medicaid will be integrated into a managed care service delivery model saving \$30 million (\$10 million general fund) in fiscal year 2012.

Foundation for Michigan's Reinvention

## **Department of Corrections**

The Department of Corrections ensures public safety by providing custody and care for incarcerated felons while maintaining oversight and supervision of parolees and felony probationers. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$2.0 billion, of which \$1.9 billion is general fund. The Governor's proposed budget for fiscal year 2013 recommends total funding of \$2.1 billion, of which \$2.0 billion is general fund.* 

### Nearly 80% of Corrections Costs are in Prison Operations

### Highlights of the Governor's Budget Recommendation

- The Executive Budget includes \$1.6 billion to operate a safe and secure prison system that currently houses 44,000 prisoners.
- The Governor's budget includes \$222 million in funding for oversight and supervision of parolees and felony probationers.
- The budget provides \$133 million in funding for community programs such county jail reimbursement, community corrections, and the Michigan Prisoner Reentry Initiative.

### Savings in the Governor's Recommendation for the Department of Corrections

The Governor recommends \$51 million in net savings through various department efficiencies including use of existing Michigan Prisoner Re-entry Initiative (MPRI) resources that will allow for a prison closure.

• The Parole Board will return to a 10 member body appointed by the director of the department under Executive Order 2011-3. The Governor recommends continued use of MPRI assets to support carefully considered parole decisions. There are currently over 8,000 prisoners who have served their minimum sentences and are eligible for parole. The department anticipates that paroles over the next few months will allow for the closure of a facility late in fiscal year 2011. Fiscal year 2012 savings related to that closure are estimated to be \$18.9 million.

- The Governor recommends continuation of the department's multi-year supply chain transformation strategy. To date, \$19.3 million in savings have been realized through these efforts. Business process improvements have been previously identified in prisoner transportation, warehouse operations, and food service and further efforts will continue to focus on logistics savings within the department to save an additional \$10 million during 2012.
- The Executive Recommendation includes \$8.5 million in savings through reduction in management positions in prison operations. The number of Lieutenant positions will be reduced at all prison complexes.
- Efficiencies of \$9.5 million are sought through competitive bidding of prison food service and prison store operations.
- Additional savings of \$3.6 million general fund have been identified through the elimination of the public works program, additional business office consolidations, and contract savings.

## **Department of Education**

Leadership for Michigan's public education system is vested by the state Constitution in the elected members of the Board of Education. The board and the Department of Education are focused on preparing Michigan's students to compete in a global economy. The department distributes over \$12 billion in funding to the state's public schools. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$113.9 million, of which \$18.6 million is general fund. The Governor's proposed budget for fiscal year 2013 recommends total funding of \$115.4 million, of which \$18.9 million is general fund.* 

#### Department Budget Funds a Variety of Educational Support Services

### Highlights of Governor's Budget Recommendation

- School support services are decreased by 8.4 percent to a total of \$62.3 million (\$4.4 million general fund) mostly due to technical adjustments. The department monitors the effectiveness of early childhood education, special education, and career and technical education programs.
- The Executive Budget increases funding for the Michigan Schools for the Deaf and Blind by 2.1 percent to a total of \$14.4 million.
- The Governor decreases funding for library services by 9.4 percent to a total of \$13.7 million (\$8.2 million general fund), which includes a \$2.3 million cut in state aid to local libraries. Of the remaining funding, \$950,000 general fund is set aside specifically to support the Michigan eLibrary.
- The Executive Budget includes \$12.5 million (\$4.7 million general fund) to provide overall leadership and administration of the department.

- The fiscal year 2012 budget decreases funding to measure students' academic achievement by 34.7 percent to a total of \$11 million (\$1.3 million general fund) mostly due to the removal of one-time funding.
- The Governor proposes statutory amendments to the state education reforms enacted in December 2009. These changes result in savings of \$1.9 million general fund. The department will continue to assist underperforming schools in increasing student achievement.

## Department of Energy, Labor and Economic Growth

The Department of Energy, Labor and Economic Growth (DELEG) administers the state's workforce training programs, business, industry, and occupational regulatory functions, and unemployment insurance system. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$1.3 billion, of which \$43.5 million is general fund. The Governor's proposed budget for fiscal year 2013 recommends total funding of \$1.3 billion, of which \$43.5 million, of which \$44.1 million is general fund.* 

#### Highlights of Governor's Budget Recommendation

- To help advance Michigan's global competitiveness, the Governor's budget provides over \$670 million (\$34.6 million general fund) for the support of workforce development programs that enhance the skills of Michigan workers and prepare them for the occupations of today's economy.
- The Executive Budget includes over \$340 million for regulatory and consumer protection programs, including an increase of \$1.8 million to support the department's role in the continued development of the Michigan Business One-Stop Center, the state's central online service dedicated to helping new and existing companies conduct business in Michigan.
- The Governor streamlines the state's worker compensation dispute resolution process by eliminating the Workers' Compensation Appellate Commission, saving nearly \$1.2 million general fund annually. The number of cases reaching the commission declined by 68 percent over the last ten years to 173 in 2010. Employers and employees may appeal Board of Magistrates decisions to the Court of Appeals.

- Consistent with the decline in taxable property values, the Executive Budget reduces Fire Protection Grants to local units of government by 15 percent. Grants of \$9.3 million will be paid to local units of government that provide fire protection services for state-owned facilities.
  - The Executive Budget recognizes savings that total \$2.9 million (over \$1.7 million general fund) as a result of employee retirements and administrative efficiencies achieved by the department.

## **Department of Environmental Quality**

**F**unding for the Department of Environmental Quality supports programs to restore and enhance Michigan's environment and preserve our natural resources. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$405.8 million, of which \$21.5 million is general fund. The fiscal year 2013 recommendation includes \$410.6 million total funding of which \$22.1 million is general fund.* 

#### Highlights of Governor's Budget Recommendation

- The fiscal year 2012 Executive Recommendation reflects the Governor's decision to create a separate Department of Environmental Quality to better focus on administering programs and enforcing laws that protect public health and promote the appropriate use of, limit the adverse effects on, and restore the quality of the environment.
- Funding for core programs of the department is maintained including water, land, and air quality management as well as limited environmental cleanups.
- A change in formula for the air emissions fee is recommended to generate sufficient funding to adequately implement the Renewable Operating Program established by the Clean Air Act.
- Approximately \$134 million is allocated to local units of government as grants and loans for cleanup activities and pollution prevention efforts, including \$25 million for Great Lakes restoration efforts.
- Over \$111 million supports environmental cleanup and response activities, including \$30 million of new Strategic Water Quality Initiatives Funds to be used to clean up nonpoint source contamination and \$4.4 million to address state-owned sites with the highest environmental risks.

- The Governor proposes to increase the current fee of \$0.07 per cubic yard of solid waste to \$0.12 to generate sufficient revenue to adequately support the Solid Waste Management Program. This program has been, and will continue to be, funded entirely with fee revenue.
- Additional available restricted funding is recommended to replace the Coastal and Inland Waters Permit Information System with an improved integrated system and database. The current system is over 20 years old and is no longer supported by the manufacturer.
- As part of the \$3.8 million general fund reduction, the Governor recommends a \$1.2 million reduction to various pollution prevention programs.
- A new wastewater operator certification exam and renewal fee is recommended to offset a \$200,000 general fund reduction and to replace federal funding which is no longer available to support the program.
- The Governor proposes to shift costs currently paid with \$1.1 million general fund for the Critical Dunes and Hazardous Waste Programs to available restricted funds.
- The Nonmetallic Mine Reclamation and High Risk Erosion programs are recommended to be eliminated and the Geologic Mapping and Information Program is recommended to be reassigned to the Geosciences Department of Western Michigan University. A corresponding savings to the general fund of \$250,000 will occur.
- Administrative costs will be reduced by \$1 million general fund.

## **Executive Office**

The Executive Office is the Office of the Governor. The budget provides funding for the Governor and his immediate staff, who assist him in executing his constitutional responsibilities as chief executive of the State of Michigan. The Executive Office also includes funding for the Lieutenant Governor's office. The Lieutenant Governor performs gubernatorial functions in the Governor's absence, presides over the Senate, and represents the Governor at selected local, state and national meetings. The Executive Office also contains the Constituent Services Division, which serves as a resource for the citizens of Michigan to communicate their concerns and opinions directly to the Governor. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$4.4 million, a 5 percent reduction from the current year. # **Higher Education**

The Higher Education budget provides operating support to the state's 15 public universities and also funds student financial aid programs. *The Governor's proposed budget for fiscal years* 2012 and 2013 recommends total funding of nearly \$1.4 billion, of which \$1.3 billion is state funds.

### Highlights of Governor's Budget Recommendation

• Overall university operations funding is \$1.2 billion. Due to the fiscal constraints facing the state, this is a reduction in operations funding of 15 percent. In the \$1.2 billion, the

Governor recommends tuition incentive grants of \$83 million. These grants will be accessible to universities that keep tuition and fee increases below the combined five year average of annual changes in tuition and fee rates of all of the universities.

• Beginning in fiscal year 2013, Governor Snyder proposes the use of a formula to allocate

FY 2012 State University Funding	Operations	<b>Tuition Incentive</b>
(\$ in Thousands)	Funding	Grants
Michigan State University	\$222,796.2	\$18,324.6
University of Michigan - Ann Arbor	254,931.8	13,871.5
Wayne State University	169,209.4	12,827.5
Central Michigan University	61,431.1	6,677.8
Eastern Michigan University	61,319.9	3,299.2
Ferris State University	37,971.6	3,352.7
Grand Valley State University	48,431.5	4,245.9
Lake Superior State University	10,055.1	734.4
Michigan Technological University	37,409.7	3,323.9
Northern Michigan University	36,225.2	2,142.2
Oakland University	39,313.5	3,831.5
Saginaw Valley State University	21,969.3	1,592.2
University of Michigan - Dearborn	19,627.4	1,388.9
University of Michigan - Flint	16,679.4	1,083.0
Western Michigan University	86,866.7	6,301.6
Total	\$1,124,237.8	\$82,996.9

university funding. The efforts to develop the formula will be led by the State Budget Director, with input from universities and other stakeholders. The formula will encourage universities to graduate a highly educated workforce in a timely manner and conduct research that contributes to the overall economic strategy for Michigan.

- Funding for the Agricultural Experiment Station and the Cooperative Extension Service is reduced by 15 percent and combined into a single appropriation of \$52.6 million to give Michigan State University the ability to use the funds more strategically.
- Funding for student financial aid is maintained at fiscal year 2011 levels (\$51.5 million). To streamline administration, the Michigan Competitive Scholarship and the Tuition Grants programs are merged into Governor Snyder's new Pathway to Higher Education grants. Needy Michigan students will qualify for an annual grant of approximately \$875 to help defray the cost of attending college. Students will be able to use the grant at any public or private college or university in Michigan.
- The Tuition Incentive Program (TIP) is increased by \$6.4 million to \$43.8 million to encourage Medicaid-eligible students to complete high school and earn a college degree.
- State Building Authority rent payments of \$117.2 million, all general fund, support debt service for recently constructed university building projects.

## **Department of Human Services**

The Department of Human Services helps families and individuals meet financial, medical, and social service needs. The Department of Human Services programs provide financial assistance and medical assistance to Michigan's low-income population; move people toward self-sufficiency through employment and training services; work to prevent abuse, neglect, and exploitation of children and vulnerable adults through direct services; and regulate and license adult and child care agencies, facilities, and homes. Services are provided through a network of county-based offices. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$6.9 billion, of which \$1.1 billion is general fund. For fiscal year 2013, the Governor recommends total funding of \$6.9 billion, of which \$1.2 billion is general fund.* 

## Highlights of Governor's Budget Recommendation

- The Governor's budget invests over \$899.4 million (\$382.1 million general fund) in Michigan's child welfare system.
  - Child welfare improvements are funded with an additional \$69.3 million (\$49.7 million general fund) for fiscal year 2012. During the last five years, Michigan has invested \$273 million (\$186 million general fund) to enhance child welfare services for abused and neglected children. These funds support staff for child protective services, foster care, adoption and contract monitoring; private agency staff and administrative costs; a needs assessment to aid in service provision; a federally required child welfare automation system and expansion of foster care program eligibility to age 21.
  - Foster care payments for 7,200 children in out-of-home care are supported with \$206.8 million (\$91.9 million general fund). These payments provide care and supervision until children are returned to their parents or are adopted.
  - 28,200 adopted children receive adoption subsidies at a funding level of \$228.7 million (\$81.3 million general fund).

To support Michigan's safety-net programs, the Governor's budget replaces federal stimulus funds which are no longer available with \$153 million general fund.

### One out of Every Five People in Michigan Receives Food Assistance

• Over 2 million people receive Food Assistance, funded with \$3.6 billion in federal funds. The Food Assistance caseload has more than doubled since 2004.

### Other Highlights of the Governor's Budget

Income Assistance Programs

.

- The Governor recommends a 48 month lifetime limit for Family Independence Program recipients, saving \$77.4 million (\$65 million general fund). Exemptions for incapacity and hardship will provide safeguards for those clients who are unable to achieve self-sufficiency in four years. With this policy change, the Family Independence Program will provide financial support for 71,000 families at a cost of \$356.8 million (\$141.7 million general fund).
- Safe, high quality child day care for 27,000 low-income families is funded at \$172 million (\$37.1 million general fund). Hourly reimbursement rates paid to aides and relatives in the child day care program are reduced from \$1.60 to \$1.35, saving \$13.9 million general fund.
- The State Disability Assistance program for 10,850 disabled adults is supported with \$34.7 million (\$20.3 million general fund).
• Over \$116.5 million in federal and state restricted funds are allocated to support the home heating credit, energy-related crisis payments and weatherization for low-income home owners.

### Juvenile Justice Services

• Funding of \$34.9 million (\$17.8 million general fund) is allocated for Juvenile Justice Services to provide treatment, residential placement, community support services, and re-entry programs for delinquent youth. With the recommended closure of Shawano Center, the state will operate two residential placement facilities: Maxey Training School for males and Bay Pines Center for females.

### Child Care Fund

• Child Care Fund reimbursements to local units of government to support Foster Care and Juvenile Justice Services are financed with \$206 million (\$93.6 million general fund).

### Child Support

• To help Michigan children obtain financial support from absent parents, over \$206.4 million (\$21.6 million general fund) is provided for the child support program. General fund savings of \$3.4 million will be achieved by implementing a \$25 fee from non-custodial parents to support child support enforcement operations.

Fiscal Years 2012 and 2013 Executive Budget Recommendation

Foundation for Michigan's Reinvention

## Judiciary

The Michigan Constitution vests the judicial power of the state exclusively in a court system composed of the Supreme Court, the Court of Appeals, the Circuit Court (which is the trial court of general jurisdiction, including the Family Court division), the Probate Court, and courts of limited jurisdiction such as the Court of Claims, District Court and municipal courts. The statewide court system is administered by the Supreme Court Justices through the State Court Administrative Office. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$260.3 million, of which \$152.9 million is general fund. The Governor's proposed budget for fiscal year 2013 recommends total funding of \$261.9 million, of which \$154.4 million is general fund.* 

- The Governor recommends \$94.6 million for judicial salaries. Savings of \$942,100 have been identified through the elimination of six trial court judgeships.
- Local trial courts are supported with \$86.1 million.
- The Executive Budget recommends \$19.4 million for the Court of Appeals.
- The State Appellate Defender Office, the Michigan Appellate Assigned Counsel System, and local legal aid agencies are funded at current year levels in order to provide indigent legal assistance.
- Specialized drug treatment courts receive continuation level funding of \$6.1 million to provide alternatives to incarceration for offenders with drug and alcohol problems.

## Legislature

The Michigan Constitution vests the state's lawmaking power in a two-house Legislature consisting of a 38-member Senate and a 110-member House of Representatives. The Legislature is a sovereign and independent branch of state government with the authority to enact laws that regulate and protect the actions and interests of the government and the people. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$116 million, of which \$109.2 million is general fund. The Governor's proposed budget for fiscal year 2013 recommends total funding of \$116 million, of which \$109.2 million is general fund.* 

- The Executive Recommendation provides \$100.3 million for the Legislature, including the Senate, the House of Representatives, and supporting entities.
- More than \$15.6 million is dedicated for the Legislative Auditor General, a constitutionally required position to conduct financial and performance audits of state government operations.

### Department of Military and Veterans Affairs

The Department of Military and Veterans Affairs' primary mission is military and emergency preparedness, followed closely by service to veterans. The department is a key partner with the federal government in defending sovereign interests of the United States globally and protects the lives and property of Michigan residents during times of natural disaster and civil unrest. There are approximately 11,700 members of the Michigan National Guard, 1,640 on active duty and mobilized to serve around the world, and an additional 630 scheduled to be deployed through 2012. *The Governor's proposed budget for fiscal year 2012 recommends total funding of* \$152 million, of which \$33 million is general fund. For fiscal year 2013, the Governor's proposed budget recommends total funding of \$153 million, \$34 million of which is general fund.

### **Over 50% of Funding Supports Veterans' Services**

- The budget includes \$54.1 million in funding for Military Preparedness, representing the Michigan National Guard's traditional mission of state and national defense and homeland security. Additionally, \$16.7 million is available for special maintenance projects at federal military facilities in Michigan, including \$1.7 million for a light demolition range at Camp Grayling.
- Veterans, their families, and Michigan communities, through the department's outreach programs, are served with \$12.3 million in funding. In addition, Veterans Service Organizations will continue to receive \$3 million in state-funded grants to counsel veterans and assist them in receiving benefits.
- The fiscal year 2012 Executive Recommendation provides \$66.3 million in funding support for the Grand Rapids and D. J. Jacobetti Veterans' Homes, which provide direct nursing care for 875 resident veterans. The budget includes \$4.2 million in savings from competitive bidding for resident care aides at the Grand Rapids Veterans' Home. During 2012, the department will explore the feasibility of developing a public/private partnership to run both Veterans' Homes.

Fiscal Years 2012 and 2013 Executive Budget Recommendation

### **Department of Natural Resources**

**F**unding for the Department of Natural Resources supports programs for wildlife and fisheries management, state parks and recreation areas, conservation and law enforcement, and forest management. *The Governor's proposed budget for fiscal year 2012 recommends total funding of* \$330.2 *million, of which* \$13.7 *million is general fund. The fiscal year 2013 recommendation includes* \$336.5 *million total funding of which* \$14.1 *million is general fund.* 

# Streamlined Structure of the New Department of Natural Resources

- The fiscal year 2012 Executive Recommendation reflects the Governor's decision to create a separate Department of Natural Resources to better focus on the conservation, protection, management, accessible use and enjoyment of the State's natural resources.
- Over \$90 million supports state parks, historical parks, and other recreational activities, while \$46 million is used to manage and protect forestland.
- Almost \$90 million supports wildlife management, fisheries management and law enforcement activities.
- Over \$44 million is paid to local units of government, including \$10 million for Great Lakes restoration efforts.
- Over \$25 million is recommended for capital outlay projects including over \$14 million for repair and maintenance at state parks and approximately \$10 million for state and local waterways projects.
- The Governor recommends \$2.4 million in general fund savings to be achieved by streamlining operations of the Mackinac Island State Park Commission; partnering with Michigan State University on endangered species studies; shifting to a fee based structure for regulation of privately owned cervidae facilities; and other administrative efficiencies.

Foundation for Michigan's Reinvention

## **Revenue Sharing**

Michigan's revenue sharing program distributes sales tax revenue to local units of government, allowing communities to determine how best to fund local services. There are two ways that local units share in a portion of state sales tax revenue: a constitutionally-dedicated portion is distributed to cities, villages, and townships; an additional portion of sales tax revenue is earmarked in state law to provide revenue sharing payments that are subject to annual appropriation. *Funding for fiscal year 2012 is recommended at \$959 million, which includes \$659 million for constitutionally-required revenue sharing payments, \$100 million for revenue sharing payments to counties, and \$200 million for a new incentive-based revenue sharing program. Anticipated funding for fiscal year 2013 is recommended at \$991.1 million, which includes \$680.4 million for constitutionally-required revenue sharing payments to counties, and \$200 million for revenue sharing payments to counties, and \$200 million for revenue sharing payments.* 

- Constitutional revenue sharing payments for cities, villages, and townships are increased by \$25.5 million (4 percent), to \$659 million, based on estimated sales tax collections.
- State revenue sharing payments of \$100 million (down 34 percent) are recommended for counties that exhaust their revenue sharing reserve funds prior to, or during, fiscal year 2012. Phasing-in the early collection of winter property tax payments created a reserve fund for each county in fiscal year 2005, allowing the state to suspend revenue sharing payments until a county's fund is depleted. An estimated 50 counties qualify for resumed state revenue sharing payments in fiscal year 2012.
- Statutory revenue sharing payments for cities, villages, and townships are recommended for elimination in fiscal year 2012. Less than 30 percent of all local units currently receive statutory revenue sharing payments.

An incentive-based revenue sharing program is recommended in fiscal year 2012 funded with \$200 million in sales tax revenue. Cities, villages, and townships will receive financial incentives for meeting specific standards and adopting best practices. Program components will be included with Governor Snyder's March 2011 special message on local government reform.

•

### School Aid

The K-12 School Aid budget provides operational funding for the state's public schools, an integral component of the state's overall education system, from preschool through college. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$12.2 billion, of which \$412.5 million is general fund. The estimated fiscal year 2013 budget totals \$12.1 billion, including \$345.2 million general fund.* 

- The Executive Budget includes nearly \$8.8 billion in funding for schools' basic operations, a reduction of \$564 million from the fiscal year 2011 level. Foundation allowances are reduced 4.1 percent, an additional \$300 per pupil, to reflect available revenues.
- The Governor's recommendation maintains over \$1.4 billion in funding for programs that assist nearly 55,000 special education students in the state.
- The fiscal year 2012 budget maintains funding for early childhood programs of nearly \$110 million (\$9.2 million general fund) at the fiscal year 2011 levels. These programs are expected to provide over 28,000 children with early learning opportunities.
- The Governor also maintains spending of \$1.2 billion for core student supplemental programs such as services for academically at-risk pupils (\$309 million), adult education (\$22 million), vocational education (\$35.6 million) and added costs for educating court wards (\$8 million). Other discretionary categorical programs and district-specific earmarks totaling \$85.6 million are eliminated.

• To offset state funding reductions, the Governor recommends districts continue to seek economies of scale for non-instructional services. A 10 percent savings in non-instructional services would yield \$300 million statewide. Furthermore, increased employee participation in the costs of health insurance could save an additional \$300 million.

### Highlights of the Fiscal Year 2013 Budget Recommendation

- The Governor anticipates that the fiscal year 2013 budget, after technical adjustments for projected enrollment and taxable valuations, will be maintained at the fiscal year 2012 levels.
- For fiscal year 2013, the Governor sets aside \$300 million from discretionary funding that, at a minimum, will be available to eligible districts whose employees share in health insurance costs at a rate comparable to that for state employees. Further information will be included in Governor Snyder's April 2011 message on education reform.

### **Department of State**

The Department of State administers Michigan's motor vehicle programs including titling, registering vehicles, licensing drivers, and monitoring driver performance. The Secretary of State also supervises statewide elections and administers state election law. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$211.9 million, of which \$11.3 million is general fund.* For fiscal year 2013, the Governor recommends total funding for the department of \$216.5 million, of which \$11.6 is general fund.

The Department of State collects over \$2.1 billion in revenues. This includes \$887 million in highway funds, \$855.7 million in sales and use taxes, and \$40.6 million in record look-up fees. The Department of State has contact with the majority of Michigan's citizens through registered vehicles, driver licenses or personal identification card holders, registered watercraft or snowmobiles and election voting in the 1,800 cities, townships, and villages.

State Restricted Funds Help Support Department Services

#### Highlights of Governor's Budget Recommendation

• The Governor's budget includes \$2.1 million in administrative savings to reflect the department's continuing efforts to serve residents in the most cost effective manner, such as web-based services, kiosks and mail transactions.

### **Department of State Police**

The Michigan State Police (MSP) delivers law enforcement services throughout the state. The Governor's proposed budget for fiscal year 2012 recommends total funding of \$521.5 million, of which \$261.7 million is general fund. The Governor's proposed budget for fiscal year 2013 recommends total funding of \$531.2 million, of which \$267 million is general fund.

- The Governor's Recommendation provides \$267.4 million (\$184.5 million general fund) for field services, which includes enforcement of traffic laws and commercial motor vehicles, as well as investigative services. A recommended change in the delivery of police services will accommodate the public safety needs of various areas throughout the state while saving \$3.2 million general fund. The number of police posts will be reduced and investigative services will be expanded to all seven districts.
- The Executive Budget includes over \$100.2 million (\$34.2 million general fund) for the Science, Technology, and Training Bureau, while maintaining full funding of \$36.7 million (\$15.7 million general fund) for forensic sciences.
- The Governor recommends closure of the Rockford Dispatch Center, which saves \$1.0 million general fund and shifts calls to the Lansing and Gaylord Regional Dispatch Centers.
- The Executive Recommendation includes administrative savings of \$11.5 million general fund by reducing trooper overtime and allowing enlisted personnel to enroll in the deferred retirement option plan.
- Fee increases are proposed for the processing of fingerprints, with the new revenue used to offset general fund costs associated with latent print scientists.

Fiscal Years 2012 and 2013 Executive Budget Recommendation

Foundation for Michigan's Reinvention

### Department of Technology, Management & Budget

The Department of Technology, Management and Budget (DTMB) supports the business operations of state agencies through a variety of services. These services include: building management and maintenance; promoting innovative technology to ensure efficiencies in state government; centralized contracting, purchasing, and accounting programs; space planning and leasing; construction management; and management of the state motor vehicle fleet and the state retirement systems. The department also houses four autonomous agencies - the Civil Service Commission, the State Budget Office, the Office of the State Employer, and the Office of Children's Ombudsman. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$1.0 billion, of which \$313.4 million is general fund. The Governor's proposed budget for fiscal year 2013 recommends total funding of \$1.0 billion, of which \$325.7 million is general fund.* 

- The Governor's budget includes \$435.1 million for statewide information technology support to all state departments and agencies, funded entirely by user fees from client agencies. The Governor includes an investment of \$5.0 million to incentivize state agency reforms through a new Information Technology Innovations Fund. The fund will be used to competitively select and invest in high-priority, low-cost state agency innovation projects demonstrating significant return on investment.
- The Executive Budget proposes spending \$64.8 million for the Civil Service Commission to provide professional, non-partisan oversight of the state's workforce.
- To meet the state's debt service obligations, State Building Authority rent payments for state buildings, universities, and community colleges are increased by \$15 million to \$256.9 million, all general fund.
- Governor Snyder proposes \$1.0 million for the Office of Children's Ombudsman, which monitors state compliance with policies pertaining to children's protective services and the placement, supervision, and treatment of children in foster care and adoptive homes.
- The Executive Budget recognizes savings that total nearly \$3 million (approximately \$2 million general fund) as a result of employee retirements and administrative efficiencies achieved by the department.
- The statewide accounting consolidation begun in 2008 is continued with the transfer of \$1.6 million and 14 positions for accounting services from the Departments of State Police and Military and Veterans Affairs to DTMB, creating greater efficiencies.

# **Department of Transportation**

Through investments in the state's network of roads and bridges, public transportation systems, freight development, and aviation programs, the Department of Transportation (MDOT) works to ensure a safe, efficient and effective transportation infrastructure. *The Governor's proposed budget for fiscal year 2012 and 2013 recommends total funding of nearly \$3.4 billion in each year, supported entirely with federal and state restricted revenues.* 

### Highlights of Governor's Budget Recommendation

- Governor Snyder's budget recommendation for the Department of Transportation matches all available federal highway aid in fiscal years 2012 and 2013. The budget does so with an innovative, and federally approved, use of Canadian funding being provided to cover Michigan's costs associated with the construction of the New International Trade Crossing. Governor Synder announced his support for this new bridge connecting Detroit to Windsor, Ontario in his State of the State Address in January, citing the significant economic development potential of this global trade corridor.
- Of the Canadian funds, a total of \$50 million in fiscal year 2012, and \$100 million in fiscal year 2013, will be used for federal aid match purposes. Additionally, the department has identified other administrative reductions, efficiencies, and continued use of restricted funds to ensure that Michigan receives its full federal allocation.
- With the match of federal highway aid, the Governor's budget provides \$2.6 billion in each fiscal year for state and local road and bridge construction and maintenance projects. At present, 91 percent of state trunkline roads in Michigan are in good or fair condition as measured by remaining service life.
- The Governor's budget also includes roughly \$305 million in each fiscal year for public transportation services to preserve local bus operating assistance, and support other public transportation, rail freight and marine programs. The Governor's recommendation also supports \$113 million in fiscal year 2012, and \$97 million in fiscal year 2013, for building and airport improvement projects.

Fiscal Years 2012 and 2013 Executive Budget Recommendation

Foundation for Michigan's Reinvention

# **Department of Treasury**

The Department of Treasury's major responsibilities include the fair and efficient administration of the state's tax system, investing state funds, safeguarding the credit rating of the state and local governments, forecasting state economic activity and revenue, administering the property tax law, auditing county and municipal financial records, maximizing lottery revenues to the School Aid Fund and providing oversight of casino gaming operations. The Michigan State Housing Development Authority and the Michigan Strategic Fund Agency are also located in the Department of Treasury. *The Governor's proposed budget for fiscal year 2012 recommends total funding of \$2 billion, of which \$258.4 million is general fund. The recommended budget for fiscal year 2013 totals \$2 billion, of which \$249.1 million is general fund.* 

### Highlights of Governor's Budget Recommendation

- The Governor's budget includes \$75 million in 21st Century Jobs Fund revenues to support economic development activities in the state. Fulfilling a commitment made during the Governor's State of the State address, \$25 million of that amount will be used to continue the award-winning Pure Michigan tourism promotion program. The remaining \$50 million will be used for innovation and entrepreneurship, as well as business attraction and economic gardening to attract, support and retain businesses in Michigan. These funds will be augmented with an additional \$25 million general fund for business attraction and retention.
- Consistent with the Governor's proposal to eliminate business tax credits, the fiscal year 2012 recommendation for the Michigan Strategic Fund Agency includes a direct appropriation of \$25 million general fund for film incentives to help make Michigan a top destination for filmmaking and digital media.
- The proposed budget also includes \$5 million in quality of place and talent enhancement funds to attract and retain knowledge-based talent and to enhance the "Quality of Place" in Michigan's rural and urban communities.
- The Governor recommends \$140.9 million for debt service payments, an increase of \$83.3 million over the current year.
- In recognition of the decline in property tax values, the fiscal year 2012 budget reduces all state payments in lieu of taxes to local units of government by 15 percent.
- In anticipation of a Presidential primary in 2012, the budget includes one-time funding of \$10 million for the costs of administering the primary, as required by state law.
- Continuation-level restricted funding is recommended for the Michigan State Housing Development Authority (\$226 million), the Bureau of State Lottery (\$44.2 million) and the Casino Gaming Board (\$26.3 million)

### **Economic Outlook**

The economic outlook for FY 2011 and FY 2012 was agreed to at the January 14, 2011, Consensus Revenue Estimating Conference by the Administration, House Fiscal Agency, and Senate Fiscal Agency. The economic outlook for FY 2013 was prepared by the Administration.

### 2010 U.S. Economic Review

The U.S. economic recovery which officially began in mid-2009 continued throughout 2010. As a result, after reporting its largest calendar year decline since 1946 in 2009 (-2.6 percent), the U.S. economy grew 2.8 percent in 2010. Real GDP has increased every quarter since the recovery began and while slowing in the second quarter of 2010, growth accelerated during the second half of the year.

The labor market has lagged overall economic growth. Preliminary 2010 U.S. wage and salary employment fell 0.5 percent, but was still better than the steep 4.4 percent decline recorded in 2009. Employment began rising in March 2010 but increases have been below expectations. By the end of the year, wage and salary employment was 0.7 percent higher than it was in December 2009.

In calendar year (CY) 2010, the U.S. unemployment rate increased to 9.6 percent – its highest CY rate since 1982. The December 2010 unemployment rate fell to 9.4 percent, which was the lowest monthly rate during 2010.

The housing market continued to be weak in 2010. Housing starts increased slightly in 2010 to 587,600 starts from the 2009 record low of 554,000 starts. Housing starts in 2010 were the second lowest level ever recorded and marked the third consecutive year they remained below one million units. In 2005, housing starts stood at a record 2.1 million units. New home sales totaled 321,000 units in 2010, down 14 percent from 2009. Expiration of the home buyer's tax credit slowed sales after April 2010.

In 2010, light vehicle sales increased 10.6 percent from 2009 to 11.5 million units. Light vehicle sales gained momentum throughout 2010, selling at a 10.7 million annual average sales rate in January 2010 and finishing at a 12.5 million annual average sales rate in December 2010.

Financial markets, which had nearly collapsed in late 2008, continued to improve in 2010, but still have considerable ground to recover. By year end, the stock market had more than regained all that it had lost since the 2008 Lehman bankruptcy. The mortgage delinquency rate and foreclosure rate both fell from last year. However, the foreclosure starts rate increased for all loan types and the foreclosure starts rate for prime fixed loans set a new record high, as more loans entered the foreclosure process. Between 2009Q2 and 2010Q3, homeowner equity increased a net \$452.1 billion. While this net gain is significant, the increase still leaves homeowners with \$6.4 trillion less in homeowner equity than at the end of 2006. The most recent Federal Reserve Senior Loan Officer Opinion Survey on Bank Lending Practice (October 2010) saw evidence of some easing in

lending standards. However, the Survey also found strong indication that lending standards will remain, for some time, substantially tighter than they were prior to the financial crisis.

The Federal Reserve (Fed) has been central to the financial market's recovery. Throughout 2009, the Fed left its key lending rate at essentially zero. Further, the Fed has purchased a substantial amount of securities to help ease credit conditions. In late 2010, the Fed indicated that by June 2011 it would take further steps to shore up financial markets by purchasing an additional \$600 billion of longer-term Treasuries.

Oil prices increased throughout 2010. In January 2010, oil prices averaged \$78.22 a barrel and by December they had increased to \$89.04 a barrel.

### 2010 Michigan Economic Review

In calendar year 2010, Michigan wage and salary employment declined an estimated 0.9 percent, which was significantly less than the steep decline of 6.9 percent recorded in 2009.

Between Michigan's employment peak in June 2000 and December 2010, Michigan lost approximately 858,000 jobs. Annual average job losses in 2008 and 2009 totaled 391,000. The projected decline for 2010 is 34,000, much less than either of the previous two years.

The domestic auto industry started to recover in 2010 as light vehicle sales increased. As a result, Michigan manufacturing employment began to stabilize. Preliminary December 2010 manufacturing employment totaled 460,400 jobs, which was 10,800 jobs above the December 2009 total of 449,600 jobs.

Michigan motor vehicle production increased by nearly 38 percent in 2010 compared to 2009. Approximately 1,577,000 vehicles were produced in 2010 compared to the 1,146,000 vehicles produced in 2009.

In 2010, Michigan's unemployment rate fell slightly from 13.6 percent to an estimated 13.4 percent. In 2010, Michigan wages and salaries rose an estimated 1.4 percent. Overall personal income increased an estimated 2.4 percent in 2010, up from the 2009 personal income decline of 3.1 percent. With 0.8 percent inflation, real (inflation adjusted) personal income rose an estimated 1.6 percent.

### U.S. Economic Consensus Outlook for 2011 & 2012 and Administration Outlook for 2013

Real GDP is forecast to rise 2.8 percent in 2011, 2.7 percent in 2012, and 3.2 percent in 2013 (See Table 1). Light vehicle sales are forecast to increase to 12.9 million units in 2011 and to 14.5 million units in 2012, both of which are up from the 11.5 million units sold in 2010. By 2013, light vehicle sales are forecast to increase to 15.3 million units.

The 2011 U.S. unemployment rate is projected to fall to 9.5 percent from 9.6 percent in 2010. In 2012, the unemployment rate is forecast to edge down to 9.2 percent. By 2013, the unemployment rate is projected to decrease to 8.3 percent.

Consumer prices, as measured by the U.S. Consumer Price Index (CPI), are expected to rise 1.5 percent in 2011 and 1.8 percent in 2012. In 2013, the U.S. CPI is projected to increase by 2.2 percent.

### Michigan Economic Consensus Outlook for 2011 & 2012 & Administration Outlook for 2013

In 2011, Michigan wage and salary employment is expected to increase by a slight 0.2 percent followed by a 1.2 percent rise in 2012 and 1.2 percent in 2013. The projected increase in 2011 would mark the first annual increase in wage and salary employment since 2000.

Michigan's unemployment rate is expected to fall from 13.4 percent in 2010 to 12.3 percent in 2011. The rate is then forecast to decline in 2012 to 11.5 percent and then fall to 10.7 percent in 2013.

Michigan personal income is expected to rise 2.7 percent in 2011, 3.3 percent in 2012, and 3.9 percent in 2013. Inflation is forecast to increase 1.3 percent in 2011, 1.7 percent in 2012, and 2.1 percent in 2013. As a result, real Michigan personal income is expected to rise 1.4 percent in 2011, 1.6 percent in 2012 and 1.8 percent in 2013.

### **Forecast Risks**

Major economic and financial market challenges remain. Many fiscal and monetary policies have wound down. New fiscal and monetary policies have recently been implemented. Uncertainty surrounds the impact of having ended older programs and beginning new ones.

A weak labor market would hamper the recovery. Job growth remains key for regaining consumer confidence and spending.

While firmer than they were in the recession, U.S. credit markets remain unsettled and European credit markets may be on the verge of another major crisis. As a result, the U.S. credit markets remain at risk.

The recession and disappointing recovery may have impacted consumer and investor confidence more than assumed. Stubbornly low consumer confidence underlines this risk. Consequently, consumption and investment may be significantly lower than forecast.

Higher oil prices, leading to higher gasoline prices, could lower consumer spending by decreasing discretionary income.

It is also possible that economic activity could be stronger than expected. If the recent increase in the rate of growth continues, job growth would likely improve, which would help boost consumer confidence, consumer spending, business investment, and productivity.

 Table 1

 2011 & 2012 Consensus Economic Forecast & 2013 Administration Forecast

### **Revenue Estimates**

### Fiscal Year 2010 Revenue

While the national recession officially ended in 2009, ongoing economic weakness caused revenues to decline again in FY 2010. On a consensus basis, FY 2010 General Fund/General Purpose (GF/GP) revenue totaled \$6,785.2 million, which was down 7.9% or \$580.4 million from FY 2009. Including transfers and other one-time revenue not included in the consensus base, GF/GP revenue totaled \$7,718.7 million. School Aid Fund (SAF) revenue fell 1.0% or \$105.3 million in FY 2010 to \$10,816.9 million on a consensus basis. Including federal aid, transfers, and other budget measures, SAF revenue totaled \$13,269.8 million.

### Fiscal Year 2011, Fiscal Year 2012, and Fiscal Year 2013 Revenue Estimates

On January 14, 2011, the Administration and the House and Senate Fiscal Agencies reached a consensus on projected revenues for FY 2011 and FY 2012. The January 2011 consensus revenue estimates, along with the Administration's estimates for FY 2013, are used for the Governor's FY 2012 and FY 2013 *Executive Budget*.

Economic activity is expected to experience renewed growth in 2011 and this will help boost revenue in FY 2011. On a consensus basis, FY 2011 GF/GP revenue will increase an estimated 6.5% to \$7,227.8 million. After factoring in transfers and other budget items, FY 2011 GF/GP revenue will total \$8,368.0 million. On a consensus basis, SAF revenue will increase an estimated 1.5% in FY 2011 to \$10,979.1 million. Including transfers, federal aid, and other budget measures, FY 2011 SAF revenue will total an estimated \$13,205.4 million.

The Michigan economy is expected to continue to improve in 2012 and 2013; however, scheduled reductions in the income tax rate and the new battery tax credits will slow GF/GP revenue growth. In FY 2012 GF/GP revenue is expected to increase 0.9% to \$7,294.1 million on a consensus basis. After factoring in the Governor's proposed tax changes and other budget measures, GF/GP revenue is expected to total \$8,290.4 million in FY 2012. SAF revenue, on a consensus basis, will increase an estimated 2.0% to \$11,193.7 million in FY 2012. After factoring in the other budget measures along with the proposed tax changes, SAF revenue will total \$12,657.7 million in FY 2012.

In FY 2013, the Administration expects GF/GP revenue to decline 2.5% to \$7,111.7 million, on a consensus basis. After factoring in the proposed tax changes and other proposed revenue items, GF/GP revenue will total an estimated \$8,330.1 million. The Administration estimates SAF revenue will increase 2.5% to \$11,468.4 million in FY 2013 on a consensus basis; however, after factoring in federal aid, transfers, other budget measures and the impact of the proposed tax changes, SAF revenue is expected to total \$12,943.6 million.

### **Overall FY 2012 and FY 2013 Revenue**

Total net revenue for all funds is estimated to be \$46.83 billion in FY 2012 and \$46.90 billion in FY 2013. A summary of revenues by fund is presented on page C-8. The Detailed Statement of General and Special Revenue Funds on pages C-9 to C-17 presents information for FY 2009 through FY 2013.

RICK SNYDER GOVERNOR

BRIAN CALLEY LT. GOVERNOR

February 17, 2011

Ladies and Gentlemen of the Legislature and Citizens of the State of Michigan:

Article XI, Section 5 of the Michigan Constitution of 1963 provides that increases in rates of compensation for employees in the state classified service authorized by the Civil Service Commission require prior notice to the Governor. The Constitution also requires that I, as Governor, transmit such increases to the Legislature as part of my budget recommendation. With this letter I am officially transmitting two compensation adjustments for your review.

First, the attached cost summary prepared by the Office of the State Employer details a 2 percent general increase negotiated in 2010 with the Michigan State Police Enlisted unit. I fully support this adjustment.

Secondly, on January 26, 2011, the Civil Service Commission approved Other Eligible Adult Individual benefits for employees represented by the United Auto Workers and the Service Employees International Union Local 517M, as well as nonexclusively represented state classified employees. The Office of the State Employer estimates Fiscal Year 2012 expenses of \$8 million as a result of this adjustment.

The Constitution provides that the Michigan Legislature may, by a two-thirds vote of the members elected to and serving in each house, reject or reduce a Civil Service Commission compensation adjustment within 60 calendar days of transmission by the Governor. I urge the Legislature to exercise this right and reject the extension of health care benefits to the unrelated live-in companions of state employees and their dependents.

Sincerely,

Inder

Rick Snyder Governor

A wage adjustment is not scheduled for FY 2012.

 $^2$  T01 is scheduled to receive a 2% wage increase in FY12 on 10/1/11.

<sup>3</sup> Business Objects HR Human Resource System count of classified employees under status code of AA, AB, AC, AD, AE & AP as of 1/22/2011.

<sup>4</sup> FICA/RET rates for FY 2011 provided by SBO. Unit rates are weighted by enrollment in each retirement code via Business Objects HR Human Resource System count of classified employees under status code of AA, AB, AC, AD, AE & AP as of 1/22/2011.

<sup>5</sup> Life insurance increase on incremental cost increase. Annual \$5.46 per \$1000 of extra coverage (FY 2011 rate)

<sup>6</sup> FY 2011 rate - (Increase/100)\*.92.

<sup>7</sup> Based on FY 2010 overtime amount with FY11 (1%) - Comptroller Object Codes 3050, 3055, 3060, 3075, 3080, 3110, 3115, 3120.

Business Objects HR Human Resource System FY 2010 shift differential hours of classified employees under status code of AA, AB, AC, AD, AE & AP.

<sup>3</sup> First year estimated cost of \$8 million. However, unable to find any other program with comparable definition and coverage of Other Eligible Adult Individual and dependents so no model is available. Does not take into account adverse selection or other factors that may influence cost. Does not include unknown cost of administration and enforcement. Partricipation rates are expected to increase year to year.
